**Pre-season**

## **STATS REPORT**

Welcome to your exclusive *Across the Leagues* Champions League **Stats Report**...

There are 32 teams in the Champions League - in this report we're focusing on the 9 teams that have qualified for the competition most often and played the most games in recent seasons.

We're drawing on nine previous seasons of Champions League stats for: Juventus, Real Madrid, Man City, PSG, Bayern Munich, Barcelona, eight seasons of stats for: Atletico Madrid, five seasons of stats for: Borussia Dortmund, and four seasons of stats for: Liverpool.

All stats relate to the 90-minute markets (no Finals or games played at Neutral grounds).

This body of data gives us a strong set of Home & Away form to work with and build on for the 2021/22 Champions League season.

As the tables below show, many sides have strong records in particular stats areas and betting markets; very useful to know as we approach each round of games...

We've got unique betting stats - tailored to the markets available with the bookies - on a wide range of areas including Goals, Corners, Cards & Bookings as well as Match Results.

The historical data below is arranged into:

- Team tables - individual team stats

Followed by:

- Overall tables - ranking the teams across a range of betting markets

Team tables

Here are the 9 teams and their stats...
